

Test Cases

Test Case ID	Test Scenario / Objective	Pre-conditions	Test Steps	Expected Result
TC_BD_01	Verify end-to-end path from portal visit to booking validation.	Active network link to the BlazeDemo Site.	1. Navigate to home endpoint. 2. Select Departure ("Paris") & Destination ("London"). 3. Select "Find Flights" link button. 4. Pick the first option via "Choose This Flight" button. 5. Populate all personal & payment details placeholders. 6. Click "Purchase Flight".	Form processing finishes smoothly, showing "Thank you for your purchase today!" message header.
TC_BD_02	Validate handling constraint parameters on homepage dropdown selectors.	Active network link to the homepage.	1. Navigate to home endpoint. 2. Leave default entries intact. 3. Verify availability of target departure/arrival drop options.	Dropdown entries match the expected configuration matrix.
